Ø=Þáþ 6. SECURITY, RBAC & REGULATED ACTION GATE

- **Role-Based Access Control (RBAC):** Enforces strict view and action visibility based on active role permissions.
- **Multi-Tenant Data Isolation:** Each workspace maintains segregated leads, pipeline stages, agents, and metrics.

• **Regulated RM Approval Gate:** Mandatory human relationship manager signature required before loan disbursement term sheets are issued.
• **Defensive Error Boundaries:** Graceful UI fallback handlers for charts, data tables, and modal interactions.

' 7. VERIFICATION & PRODUCTION READINESS

• **Vite Production Build:** Passed with 0 errors across 1,930 modules.
• **Local Dev Server:** Running and active on http://localhost:5173/
• **Performance:** Fast bundle size (~153 kB gzip js, ~5.8 kB gzip css) with instant sub-second transitions.
